

InBody

DIAL H30

Whole-Body Composition Scale

InBody's high-end, home-use body composition analyzer has become even more accurate, featuring triple frequencies, and is now easier to use with its Wi-Fi connectivity and User Recognition feature.

Triple Frequencies

Accuracy has been greatly improved, complemented by an increased number of frequencies

User Recognition

Once registered, save time by eliminating the need for input to receive InBody Test results

WiFi Connection

Once registered and connected, results automatically sync with the App, even if the device is disconnected or the phone is away

InBody PRECISION FOR YOUR HOME

Free InBody App helps you to get a grip of what's in your body
